Subject: Re: alodine of steps

Peter,
Leave as is.
We have lived with this for years. This is a product improvement.
Bill

Hi Bill,

There was a Preventive Action Report for the alodining of steps. It seems a customer had paint peeling from steps that weren't alodined. All current production is being alodined and the estimates have reflected that.

What should we do with steps that are in stock?

1) Re-work them, would require finding and pulling the steps that are in stock that need alodine, removing all the paint, alodining, and re-painting, and repackaging

or

2) Leave as is

Thanks

Peter Hum
